

# Fernwood State Forest FY2016 Open House Map

Map Created 7/09/2015

The intent of this map is to display state forest zones and potential forest management activities. State forest zones are spatially defined areas for which management goals, activities, and uses are clearly outlined. The included planned forest management activities may or may not be started and/or completed during the current or following year, as they may be dependent upon multiple variables. Data represented in this map is believed to be accurate but is not warranted.
