

## Renewable or Not?

PLT Activity Number: 14

PLT Environmental Education Guide Page Number: 69

Grade Level	Science Standard	Content Statement	Content Elaboration
3	Earth & Space Science (ODE Page 80)	Earth's resources can be used for energy	Distinguish between renewable and nonrenewable resources through observation and investigation
3	Earth & Space Science (ODE Page 83)	Some of Earth's resources are limited	How are the different types of Earth's resources used and how they can be conserved
6	Earth & Space Science (ODE Page 172)	Rocks, minerals, and soil (including fossil fuels) are examples of geologic resources that are nonrenewable	Conservation of resources through management is an important part of understanding the uses of rocks, minerals, soil, and other resources
